

UST SECONDARY CONTAINMENT REQUIREMENTS TRAINING

LDEQ Underground Storage Tank (UST) Division will be conducting training for Certified UST contractors through **ENVIRO SCHOOL**. The first training sessions will be for UST Installation and Repair Contractors and will include training on the secondary containment regulations, the new UST System Installation/Renovation/Repair/Upgrade Notification Form (UST-ENF-04), and general certified worker information. The EnviroSchool UST Installation and Repair UST Contractor sessions will be held in early March 2010 in Crowley, Ruston, Baton Rouge and New Orleans. Dates and times are listed below and will also be posted on the LDEQ website on the **ENVIRO SCHOOL** page at <http://www.deq.louisiana.gov/portal/tabid/2601/Default.aspx>.

LDEQ UST Division has revised the UST System Installation/Renovation/Repair/Upgrade Notification form (UST-ENF-04) to include more detailed information on what type of equipment is going to be installed and what type of repairs will take place. LDEQ requests that UST owners and certified workers begin using this new form as soon as possible. The form can be filled out online and printed. Beginning March 1, 2010, LDEQ UST Division will no longer accept the old versions of the UST-ENF-04 Form. The new UST ENF-04 form can be obtained on the LDEQ website at <http://www.deq.louisiana.gov/portal/tabid/2674/Default.aspx>.
